Portfolio: <https://dhanush-nayak.vercel.app> | Udupi, Karnataka

CAREER OBJECTIVE

Aspiring Software Engineer with practical experience in full-stack (MERN) development, project-based learning, and internship exposure, along with foundational knowledge in data analytics. Passionate about building scalable, real-world applications and eager to contribute to innovative solutions while continuously learning and growing.

EDUCATION

Bachelor of Engineering - Information Science & Engineering	Expected: May 2026
<i>Mangalore Institute of Technology & Engineering, Moodabidre</i>	CGPA: 8.83/10
Senior Secondary (12th) – DPUE	2022
<i>Mahatma Gandhi Memorial College, Udupi</i>	Percentage: 83.5%
Secondary School (SSLC) – KSEEB	2020
<i>Parkala High School, Parkala</i>	Percentage: 87.5%

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C

Web Technologies: React.js, Next.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Database: MongoDB, Firebase, Supabase, MySQL

Data Analytics Tools: Power BI, Tableau, Microsoft Excel

Tools & Frameworks: Git, GitHub, REST APIs, Postman, Clerk Auth

Core Competencies: Full-Stack Development, API Design, UI/UX Design, Data Analysis & Visualization

PROFESSIONAL EXPERIENCE

Software Engineer Intern	January 2026 - Present
<i>Elogixa Technology India Private Limited</i>	Onsite
- Redesigned the company website with a modern, fully responsive UI using React.js and Tailwind CSS, improving user experience across devices. - Developed and integrated a job application system enabling users to apply for roles directly through the platform. - Built a secure admin portal to manage job postings, including creating, updating, and deleting job listings. - Implemented functionality for admins to view candidate applications, including resume uploads and automated ATS score evaluation. - Integrated an AI-powered chatbot using Dialogflow with NLP to deliver real-time assistance to user queries.	
Frontend Development Intern	August 2025 - September 2025
<i>Edunet Foundation & IBM SkillBuild</i>	Remote
- Developed web-based study planner with task management, progress tracking, and visual timelines using HTML5, CSS3, and JavaScript - Implemented Local Storage for data persistence and created responsive UI with cross-browser compatibility - Designed an intuitive UI with a reminder system, helping users manage tasks more efficiently and improving productivity.	

PROJECTS

Heart Disease Prediction System | Python, React.js, Node.js, Express.js, Flask, Tailwind CSS, MongoDB, Machine Learning March 2025

- Developing ML-powered health prediction platform using Random Forest algorithm.
- Built REST API connecting React frontend with Python ML model for real-time disease risk predictions
- Implemented MongoDB for storing user records and prediction analytics for data-driven insights

AI Resume Analyzer & ATS-Friendly Resume Generator | *MERN, Gemini AI January 2025*

- Developed an AI-powered resume analysis platform that compares resumes with job descriptions to generate an ATS compatibility score and improvement suggestions.
- Implemented PDF resume parsing and keyword analysis to detect missing skills and optimize resumes based on job requirements.
- Built a feature to generate ATS-friendly resumes automatically tailored to specific job descriptions.
- Added an AI interview preparation module that generates technical questions, behavioral questions, and a preparation roadmap for candidates.

Full-Stack E-commerce Platform | *MERN Stack, PayPal API, RESTful Services August 2024*

- Engineered complete e-commerce solution with secure PayPal payment gateway processing transactions
- Developed admin dashboard with CRUD operations for managing products and order status
- Implemented JWT authentication, shopping cart functionality, and responsive UI using Tailwind CSS

Real-time Chat Application | *MERN Stack, Socket.io*

October 2024

- Built scalable messaging platform using Socket.IO for instant bidirectional communication
- Architected RESTful backend with JWT authentication and MongoDB for persistent message storage
- Designed and implemented a responsive UI using Tailwind CSS

CERTIFICATIONS & ACHIEVEMENTS

UiPath Automation Explorer Training (2024) | IBM Web Development Fundamentals (2025) | Postman API Student Expert (2024) | Cognitive Class Prompt Engineering (2024) | UI/UX Workshop Participant (2025) | Arduino & Tinkercad Workshop (2025) | Code Clash Competition (2025)
