Career Objective

Aspiring Software Engineer with practical experience in full-stack (MERN) development, project-based learning, and internship exposure, along with foundational knowledge in data analytics. Passionate about building scalable, real-world applications and eager to contribute to innovative solutions while continuously learning and growing.

Education

Bachelor of Engineering – Information Science & Engineering <i>Mangalore Institute of Technology & Engineering, Moodabidre</i>	2022 – 2026 CGPA: 8.94/10
Senior Secondary (12th) – DPUE <i>Mahatma Gandhi Memorial College, Udupi</i>	2022 Percentage: 83.5%
Secondary School (SSLC) – KSEEB <i>Parkala High School, Parkala</i>	2020 Percentage: 87.5%

Technical Skills

Programming Languages:	Java, JavaScript, Python, C
Web Technologies:	React.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap
Database:	MongoDB, Firebase, MySQL, Redis
Data Analytics Tools:	Power BI, Tableau, Microsoft Excel, NumPy, Pandas
Tools & Frameworks:	Git, GitHub, Docker, REST APIs, Postman
Core Competencies:	Full-Stack Development, API Design, UI/UX Design, Data Analysis & Visualization

Professional Experience

Fullstack Development Intern <i>Elogixa Technology India Private Limited</i>	January 2026 – May 2026 Onsite
- Redesigned the company website with a modern, fully responsive UI using React.js and Tailwind CSS, improving user experience across devices. - Developed and integrated a job application system enabling users to apply for roles directly through the platform. - Built a secure admin portal to manage job postings, including creating, updating, and deleting job listings. - Implemented functionality for admins to view candidate applications, including resume uploads and automated ATS score evaluation. - Integrated an AI-powered chatbot using Dialogflow with NLP to deliver real-time assistance to user queries.	
Frontend Development Intern <i>Edunet Foundation & IBM SkillBuild</i>	August 2025 – September 2025 Remote
- Developed web-based study planner with task management, progress tracking, and visual timelines using HTML5, CSS3, and JavaScript. - Implemented Local Storage for data persistence and created responsive UI with cross-browser compatibility. - Designed an intuitive UI with a reminder system, helping users manage tasks more efficiently and improving productivity.	

Projects

Heart Disease Prediction System <i>Python, React.js, Node.js, Express.js, Flask, Tailwind CSS, MongoDB, Machine Learning</i>	March 2025
- Developing ML-powered health prediction platform using Random Forest algorithm. - Built REST API connecting React frontend with Python ML model for real-time disease risk predictions. - Implemented MongoDB for storing user records and prediction analytics for data-driven insights, with NumPy and Pandas used for data preprocessing and analysis.	
AI Resume Analyzer & ATS-Friendly Resume Generator <i>MERN, Gemini AI</i>	January 2025
Developed an AI-powered resume analysis platform that compares resumes with job descriptions to generate an ATS compatibility score and improvement suggestions.	

- Implemented PDF resume parsing and keyword analysis to detect missing skills and optimize resumes based on job requirements.
- Built a feature to generate ATS-friendly resumes automatically tailored to specific job descriptions.
- Added an AI interview preparation module that generates technical questions, behavioral questions, and a preparation roadmap for candidates.

Full-Stack E-commerce Platform

August 2024

MERN Stack, PayPal API, RESTful Services

- Engineered complete e-commerce solution with secure PayPal payment gateway processing transactions.
- Developed admin dashboard with CRUD operations for managing products and order status.
- Implemented JWT authentication, shopping cart functionality, and responsive UI using Tailwind CSS.

Real-time Chat Application

October 2024

MERN Stack, Socket.io

- Built scalable messaging platform using Socket.IO for instant bidirectional communication.
- Architected RESTful backend with JWT authentication and MongoDB for persistent message storage.
- Designed and implemented a responsive UI using Tailwind CSS.

Certifications & Achievements

- UiPath Automation Explorer Training (2024)
- IBM Web Development Fundamentals (2025)
- Postman API Student Expert (2024)
- Cognitive Class Prompt Engineering (2024)
- UI/UX Workshop Participant (2025)
- Arduino & Tinkercad Workshop (2025)
- Code Clash Competition (2025)
